

MERIPLEX COMMUNICATIONS

High-Speed Data Networks

THE LEADER IN HIGH-SPEED DATA AND VOIP NETWORKS

High-Speed Data Networks

The Meriplex Solution for High Bandwidth Voice, Data and Video

- * Fiber Optics □ Metro Ethernet
- * T-1 Data/Voice or Redundancy
- * DS3
- * MPLS
- * Point to Point
- * IP Addresses
- * BGP Boarder Gateway Protocol
- * Co-Location
 - * Houston 1001 Texas
 - * Austin 1905 E. 6th Street
- * Web Hosting
- * Email Services
- * 24/7 Maintenance & Support

• QoS □ Quality of Service

Our Quality of Service (QoS) is the ability to manage packetized voice/data traffic across a dynamically allocated broadband circuit. Equivoice ensures that voice and (other real-time apps) are given priority over data packets providing the highest quality in transmission.

High Speed Broadband Services

Businesses that demand maximum speeds get the best customer service, the most features and industry leading Quality of Service (QoS) from Meriplex Communications. We are the leading choice among broadband internet providers that offers a variety of connection options and speeds along with custom designed solutions. Meriplex Communication's customers benefit from expedited correspondence, files that are uploaded and downloaded quickly and an enhanced internet/voice experience from our QoS.

Options

Meriplex Communications is one of the few providers that offer numerous choices to business enterprises, ranging from a Managed T-1 circuit that begins at 1.5 Mbps to Fiber Optics that start at 10Mbps and goes to GigE transmission speeds. No longer are businesses strapped to one way of connecting their voice and data services.

Meriplex Communications is a Texas based enhanced service provider specializing in communication solutions for the enterprise market with its Headquarters located in Houston, Texas.

Meriplex has an exclusive division that specializes in the infrastructure and communication needs of the Oil, Gas & Chemical providers and suppliers supporting the energy sector. By the experience this team has acquired Meriplex is the obvious choice for energy and chemical companies that require IP Telephony, Security and Wireless applications worldwide.

Meriplex also focuses on converged, Internet Protocol (IP) based service bundles encompassing the whole scope of communication needs. These include local and long distance voice utilizing Voice over Internet Protocol (VoIP), fiber optic, T1 and MPLS broadband data access with guaranteed quality of service (QoS), virtual private networks (VPN), IT consulting services, and data/voice network cabling.

Fiber Optics via Metro Ethernet

Metro Ethernet Service has significantly added enhanced value, performance and speed to enterprises local area networks and in connecting to the internet. With Fiber Optic speed and reliability, the Metro Ethernet Service is helping businesses with shrinking IT budgets by addressing heavy data needs, faster point to point connections and allowing voice services to be transmitted over a robust, secure and reliable circuit. Businesses are no longer limited in bonding T-1 circuits together to increase bandwidth.

MPLS

Multiprotocol Label Switching

Meriplex Communications also offers MPLS technology for speeding up network traffic flow and making it easier to manage. In addition to moving traffic faster overall, MPLS is flexible, fast, cost efficient and allows for network segmentation.

Managed T-1

Meriplex Communications managed T-1 service is a cost effective way of utilizing both voice and data in one circuit. Our customers have discovered a cost effective way to incorporate a T-1 trunk instead of using multiple leased phone lines. Our T-1 services begin with 1.5Mbps of always on bandwidth and with our excellent Service Level Agreement (SLA) Meriplex eases your businesses worries without the high costs charged by other providers.

Redundant T-1

Add safety and security to your Fiber Optic □ Metro Ethernet service purchased from Meriplex. Protect your Voice & Data by minimizing the remote possibility of losing connectivity □ Contact a sales representative for pricing and availability in your area.
